Mann Patel

Front-End Developer & UI/UX Designer

Available for Opportunities

PROFILE

Passionate front-end developer and UI/UX enthusiast currently pursuing a B.Tech in Computer Science. Skilled in building responsive, accessible, and visually polished web applications using modern technologies. Eager to collaborate on real-world projects and continuously expand my technical skill set.

PROJECTS

Smart Calculator

2024

HTML · CSS · JavaScript

- Built a feature-rich calculator with expression evaluation, keyboard support, and history log.
- Implemented glassmorphism UI with smooth animations and full dark/light mode toggle.
- Deployed on GitHub Pages with 100% responsive layout across all screen sizes.

TaskFlow — To-Do App

2024

HTML · CSS · JavaScript · LocalStorage

- Developed a minimalist productivity app with drag-and-drop task reordering and priority tags.
- Used LocalStorage for zero-backend data persistence across browser sessions.
- Achieved clean UX with real-time search, due-date alerts, and completion tracking.

Weather Dashboard

2024

JavaScript · OpenWeather API · Chart.js

- Integrated OpenWeather API to fetch real-time weather and 5-day forecasts for any city.
- Visualized temperature trends and wind data using Chart.js interactive graphs.
- Handled error states, loading indicators, and geolocation-based auto-detection.

Expense Tracker

2025

JavaScript · Chart.js · LocalStorage

- Built a personal finance tracker with income/expense categorization and monthly breakdowns.
- Rendered dynamic pie and bar charts using Chart.js for visual budget insights.

Personal Portfolio Website

2025

HTML · CSS · JavaScript · EmailJS · AOS

- Designed and developed a full portfolio site with 5 sections, dark/light mode, and animations.
- Integrated Typed.js typing effect, AOS scroll animations, and EmailJS contact form.
- Deployed on GitHub Pages with custom meta tags for SEO and mobile-first responsive design.
